Destination

International Forum on ANSI-41 Standards Technology
IFAST Meeting #17
Tampa, Florida, USA

Abstract

A summary of the status of SID administration.

Recommendation

For information only.

First IFAST SID Administrator's Report

- The administrator apologizes for not being present at this meeting.
 - David Crowe of Cellular Networking Perspectives Ltd. was appointed SID administrator at the May, 2001 IFAST meeting.
 - No SID assignments have been requested or made since May, 2001.
 - No SID codes have been relinquished. There is an IFAST activity to circulate a letter requesting that countries only using systems that do not require SID codes (e.g. GSM, NMT) should relinquish their assignment.
 - There was one inquiry about SID assignment in Russia. However, it appears that this can be satisfied from the current Russian assignment.
-
